The paradox of abundance

Over 800 million people go hungry each day. Yet the world produces over 4 billion tonnes of food and we only need 3.7 billion tonnes to feed everyone. From all this food produced, a third is wasted. St John Paul II called this 'the paradox of abundance.' Clearly the currently global food system is not working. But as Pope Francis said, "Each of us has a role to play in transforming food systems for the benefit of people and the planet." Let's respond to his call! CAFOD's new campaign is called Fix the Food System. See www.cafod.org.uk/food for more information, including an invitation for parish groups to learn about the impact of our food with our *Fix the Food System: a 7-station journey* resource.

Thank you so much for all your support, love, and prayers, for and across our projects, as we continue to help those in need. Our community supper is now seeing 30+ people including families and children, sit down and eat together and just do community. This week everyone enjoyed Gammon, eggs, mash, salad and french bread, followed by Chocolate brownie and mint chocolate sauce. These evenings are such a blessing, where many come to enjoy the company of others. Our furniture bank has seen a rise in referrals along with those in fuel poverty. It is so sad that there is a need for families who have to choose between food and electric :(After a busy couple of years our foodbank+ is needed more than ever. 70% of those who have needed us this year have been first time users. Our present needs are Tinned fruit, Tinned Hot dog sausages, custard, UHT milk, and Lunch box snacks. Thank you and blessings in advance. Tracy, Sarah, and the Team
